

Description of Permissive Change

The report is prepared for FCC class II permissive change. Differences compared with the original are changing applicant, chip but without changing an amplifier chip, oscillator chip or frequency determining chip (more detail please refer to as below).

Band	Original Chip Model	New Chip Model
2.4GHz	AR9380 	AR9381 
5.0GHz	AR9390 	AR9380 

Please refer to test reports for more details about the test items.
